COLLECTION 2018

## // PURO ITALIAN **DESIGN**

A story that has changed the leisure vehicles' world and turned the traditional crafts into design; the Mobilvetta story has paved the way to internationalisation and anticipated the future. To be born in the sixties as furniture manufactures led Mobilvetta to develop a very innovative know how over the years.

A new product philosophy was introduced: the conception of the recreational vehicle not only as a well-equipped product but as a real "travelling home". The artisans skills joining the constant advanced technology systems contribute in reaching high quality standards.

// WHEN THE STYLE  
TURNS INTO  
**DESIGN**

**WHY  
MOBIL  
VENTIA?**

# // Centro Stile Mobilvetta V CONCEPT *V-concept*

We came up with the V-Concept with the desire to highlight all the elements that have always distinguished the Mobilvetta brand. Craftsmanship, design, style and elegance combined beneath the distinctive Mobilvetta V. The V Concept is to be found in the design of the wall units in continuity with the ceiling panels of the modern Yachts, in the armrests of the V-Sofa and in the upstands of the tops for kitchen and bathroom.

// SPACES DESIGNED  
FOR WELCOME AND  
TO AMAZE  
**FROM CONCEPT**

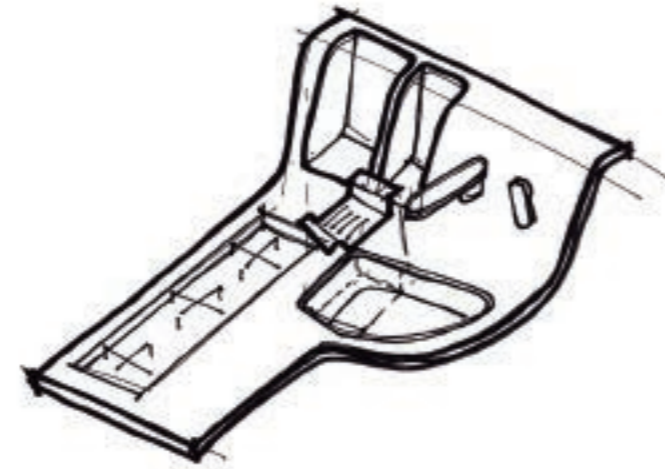

## TO REALITY

MANY INTERPRETATIONS,  
A SINGLE DESIGN

The K-YACHT TEKNO DESIGN range is here: the new Mobilvetta motorhomes represent the true essence of the brand in all their beauty. An incredible mix of automotive ergonomics and the refined, exclusive quality of the Italian design.

# ELEMENTS OF THE DESIGN

V-concept

V-sky

V-Sky-Marine-inspired concept with rounded connection on wall unit.

V-top

V-Top-Solid, compact block extending from the hob to the dinette headrests, forming a V.

V-sofa'

V-Sofa-Ergonomic two-seater sofa with V-shaped armrests for the utmost comfort during the journey.

V-bag

V-Bag - Removable shoulder bag with shape recalling the V Concept.

# MATERIALS IN THE DESIGN

Materials with their own spirit and structure, ready to emerge in your emotions.

+ SUBSTANCE AND REASSURING  
**PERFECTION**

Aluminium-Taps  
Aluminium taps made to a design that frees up the space beneath for greater freedom of movement.

Aluminium profile on cupboards  
The aluminium profile inside the door lends greater stability to the structure as a whole.

# MATERIALS IN THE DESIGN

Stainless steel hob  
Long-lasting and highly resistant to corrosion.

Light Stone  
Integrated top shaped into a continuous surface,  
thanks to single-piece forming technology.

# MATERIALS IN THE DESIGN

## Leather

Refined luxury to see and touch. Expanded polyurethane padding with genuine Italian leather upholstery (K-Yacht Tekno Design).

## Fabrics

Fabrics with exclusive Mobilvetta design, fine and natural fibres. (K-Yacht Tekno Line - Kea).

Appealing functionality

# THE TEKNO DESIGN DAY AREA

## // Concept

We started with the idea of bringing a genuine home sofa into the leisure vehicle as a development to the conventional L-shaped dinette: we designed an ergonomic two-seater sofa with armrests for the utmost comfort when travelling and relaxing.

## // Multifunction

The table with book-type opening, which can be moved and rotated 360°, permits maximum functionality in supporting for various activities, from reading a magazine to a comfortable meal for several people.

# THE DAY

// AREA

## AS COMFY AND WELCOMING AS YOUR HOME

+ 180° swivel cabin seats  
matching with living area  
upholstery  
(K-Yacht Tekno Design and K-Silver i)

- High quality upholstery materials
- Comfortable side sofa with fifth place as option (when foreseen)
- Large internal dimensions and greater comfort thanks to the movement mechanism of the drop-down bed, which doesn't take up the social space of the dinette even when open.

// BEWITCHING

Movable dinette table

180°swivel cabin seats

# THE TEKNO DESIGN KITCHEN AREA

## // Concept

We worked the V Concept into the spaces of the kitchen, shaping the top into a continuous surface which, thanks to the LIGHT STONE single-piece forming technology, allowed us to extend it to create the back and seat of the dinette

## // Multifunction

Studying the design for the worktop allowed us to create a maxi sink equipped with two flush covers: the larger one can be turned over for use as a cutting board, and the smaller as an additional top to fix to the wall, while together they create a large support surface. The shaped stainless steel utensil holder becomes a handy drip tray to insert in the sink for food preparation.

# THE KITCHEN

// AREA

## // THE TASTE OF HOME

Exclusive choices for an environment expressing the pure Italian style: elegance and functionality mixing together for a modern and innovative space.

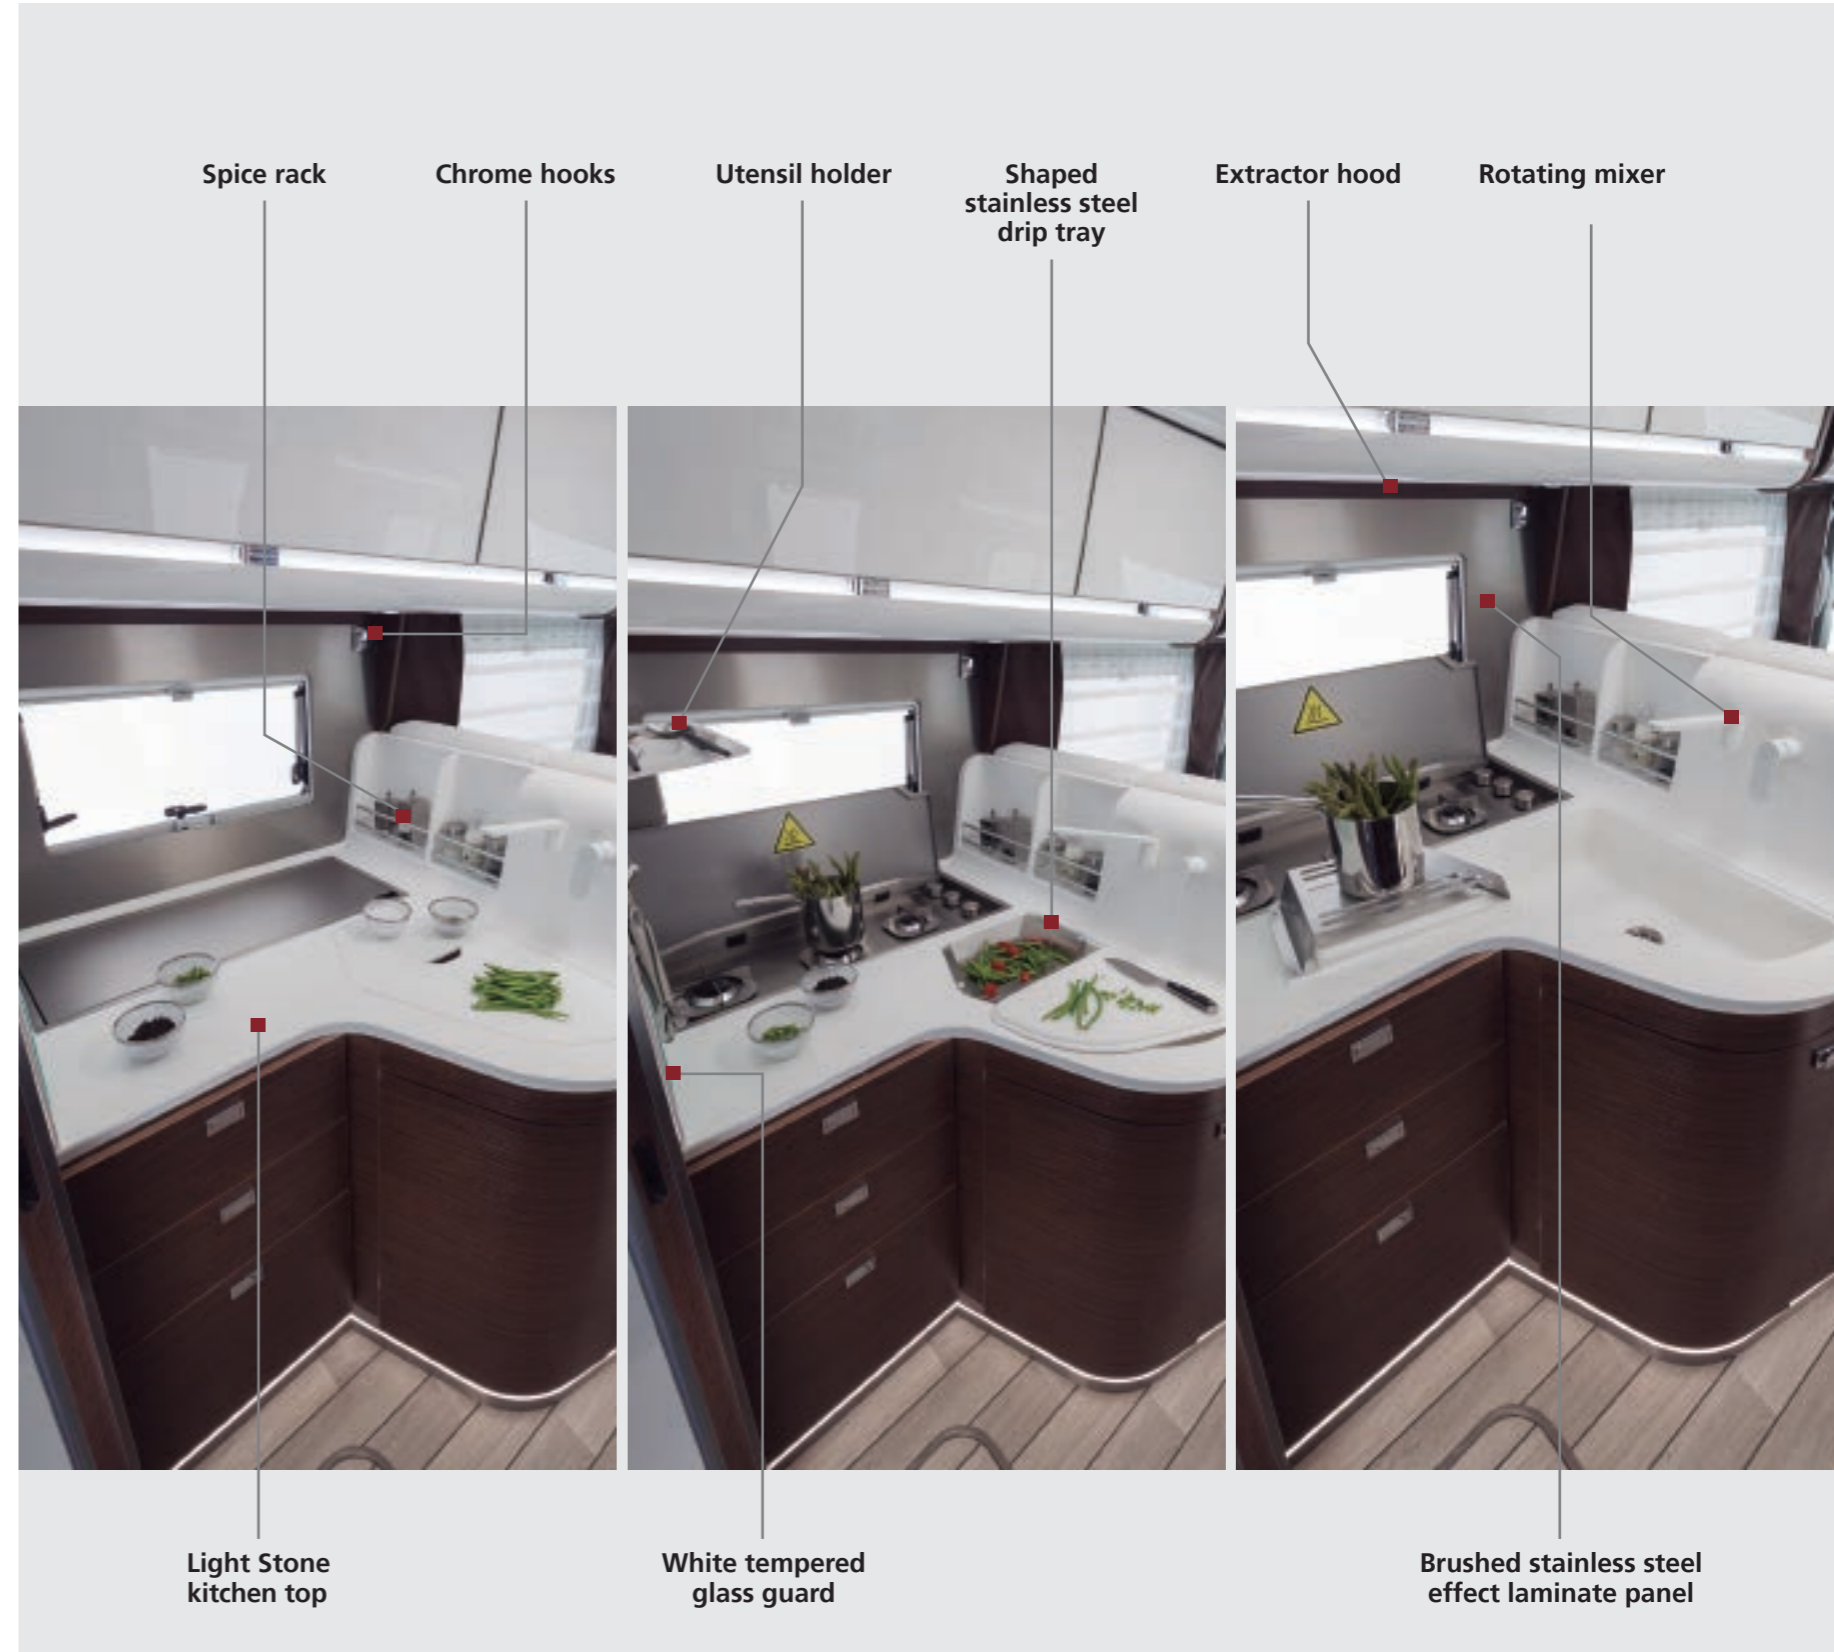

// BEWITCHING

# THE TEKNO DESIGN TOILETTE AREA

## // Concept

We worked the V Concept into the toilette area, making the top out of LIGHT STONE: the sink, toothbrush holder and liquid soap dispenser are integrated with its sinuous profile.

## // Multifunction

The wall-mounted mixer can be rotated to free up space for accessing the sink. We also created a heated vertical compartment with pull-out towel holder from the top's upstand.

# THE TOILETTE

// AREA

## // SHEER COMFORT

- Convenient steel shelves
- Led lighting 100%

// THE ELEGANCE OF  
 ITALIAN FABRIC

The fabric selection is an important detail in the Mobilvetta interior design. The Company is constantly searching for high-quality and functional fabric to match any kind of need. The materials of the seating, the curtains, the headboards and storage pockets are matching with each other, enhancing the elegance and the pure Italian design. All selected fabrics are easy to wash, stain resistant and with anti-mite treatment. The comfortable padding is in polyurethane foam and non-deformable.

## // FLOOR HEATING

Floor heating with self-regulating polymeric heating cables.\* Heat spread over the whole area.

- Energy efficiency and costs saving
- No risk of overheating
- Automatically adapted heat emission (OPT KEA M, KEA P, K-Silver / STD K-Yacht Tekno Line and K-Yacht Tekno Design).

(\* By heated folie on K-Yacht Tekno Design.

### CP PLUS

Central heating system control board Boost function for both a fast water and environment heating. Timer Heat regulator.

### WINTER PACK

Waste water tank coated with 20 mm insulating material and with anti-freezing resistor (KEAP, KEA M, K-Yacht Tekno Line and K-Silver).

### THE WINDSHIELD

Windshield with double function: defroster in winter season and solar heat protection during the summer (OPT K-Yacht Tekno Line and K-Yacht Tekno Design).

### DASHBOARD / WINDSHIELD PROTECTION

Greater windshield protection against cold/heat. Greater protection against cold draughts inside the passenger compartment. (OPT).

# // THE BODY STRUCTURE

- Waterproofing
- Heat insulation
- Stability
- Easy maintenance
- High mechanical strength
- Lighter walls
- Better soundproofing

## // Side, rear walls & roof

Wood-free supporting frame made of newly designed plastic resins. Fibreglass underbody coupled with non-slip PVC highly resistant to abrasion. Lighter structure and higher mechanical strength than the traditional wooden panels. Elimination of thermal bridges generated by the wood with higher heat insulation. Easy maintenance. Frame assembly with sound-absorbing materials for a better soundproofing.

## // The floor structure

Wood-free supporting frame. Exclusive design profiles with high strength thermosetting resin composites. Exterior and interior fibreglass coating. Waterproofing, elimination of thermal bridges generated by the wood. Structure made of extruded materials with higher heat insulation. Industrial type assembly to ensure high quality standards.

## // Connection roof / wall

Reinforced aluminum profiles, with 160 mm radius. High strength to the structure. Higher heat isolation and stability. Only for Kea P, K-Yacht Tekno Design and K-Yacht Tekno Line range foreseen.

***) Pls. Check 20 lts. filling before driving	--										
***) WINTER PACK : Insulated waste water tank and exhaust valve with antifreezing resistor	--										

The masses indicated in this catalogue refer to the provisions of European Directive 2007/46/EC.

#### MASS IN RUNNING ORDER

It includes the weight of the empty BASE vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and a gas tank for living purposes (20 kg).

The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed.

#### PAYLOAD

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects.

The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage.

All masses and loads of the empty vehicle have a tolerance of +/- 5%, in compliance with Directive 2007/46/EC.

Any optional equipment increases the mass in running order and decreases the payload.

The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue.

Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers.

In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats.

Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle.

The regulations and requirements of each country may entail changes in the characteristics of this table.

The number of certified seats may vary depending on the traffic regulations in force in each country.

#### NOTES:

SEA S.P.A. – MOBILVETTA reserves itself the right to change the characteristics and the furnishings of all its models with no advance notice required; all data contained in this leaflet must therefore be considered approximate and non-binding. Despite thorough checks of the contents, we cannot exclude possible printing and/or translating errors.

This catalogue does not constitute contractual documentation.

Any reproduction, including in part, of the text or of the content of this document is prohibited.

The indicated weights are exclusively approximated. Tolerances of +/- 5 % are allowed.

Generally speaking, special equipment and options increase the no-load weight and entail a reduction in the payload.

We hereby decline any and all responsibility in case structural changes are made to the vehicle; any assembly, disassembly or changes carried out by unauthorised workshops may jeopardise your safety and cause the warranty clauses to be forfeited.

For additional information on installation and technical details, please contact one of our dealers.
